

Thank you donators!

I'm really glad I got to go to this camp. I loved learning about code. Especially making games. Thank you,
(I'm thinking about being a mechanical engineer.) Keira

I REALLY LOVED THE ROBOTICS SECTION & FRIENDLY A.T.O.S. Now I WOULD LIKE TO PURSUE A PROFESSION IN ROBTIC ENGINEERING. THANK YOU.

I want to major in ~~cybersec~~ Cybersecurity,

I hope to work somewhere in Microsoft.

I hope to design my own game

Coding.

I want to thank all the staff that taught us, you made something seemingly boring into something cool

Liliana Arroyo

(I DK how to spell)

When I grow up I'd like to be a therapist or a social worker.
My favorite thing about the code camp is when we made the games.
Thank you UTS for inviting us to the camp. Vgo

(mon)

Selene Jaramillo

I really like it and I like the Scratch part.

I want to thank Broseph for helping me through the things that were hard and he is really nice and funny.

Pujol Garcia

I liked pretty much everything because everything was fun and helpful. Uh I don't know exactly what I wanna be when I grow up but I kind of want to be a photographer or kind of editing videos or something like that.

Uh I thank you everyone

Christine Hrina MVA

I really enjoyed this camp because it really hands on!

I learned how to program!

I want to be a photographer/
mechanical engineer lol 😊

I want to thank Aishaa for being a great TA!

Zoe Lopez, Thank you to the Staff

My favorite part about this camp is building
robot and making it move

My least favorite part about this camp is
making a website

When I grow up I want to be a vet.

I liked how we were able to play around with
Scratch after the assignments, but we need more
playtime. I really enjoyed this camp and I wish
it was longer than 5 days!

- Meagan Wright

My favorite thing here is the (oo)
things we did
I loved everything / vet / Fashion
designers
Thank YOU
To the nice and great
staff

Marshaee Holliday ☺

I still stand by my answer
that I am going to college
and becoming an architect.

Thanks to Joseph, Treshia, and
the guy I first met since
they all helped me out.
I also like all of the
teacher assistance all the same.

Arianna Labrada

My favorite part of this camp was
building and programming the robot because
I found it to be interesting how a lego
robot we built could move to specific codes.

want to be a doctor when I grow up.

thank you to my T.A., Khi, for helping me
so many times I was very confused.
(Sorry if I spelled your name wrong)

Lorraine

I liked Robotics.

I want to become a mechanical engineer.

I thank everyone for teaching me.

Julia

I really enjoyed all the programming we did and wanted to thank all the ~~the~~ teachers and ta's that help us hash out the code. When I grow up I want to be a engineer that helps the ~~other~~ future people live better lives.

Maribel

I want to be a police or a bae for because I wanna help others and beats for them.

I like about camp was we a work together and do different things that were so fun.

Thank all of
ya'll for helping
me learn how
to code

Dear UTSA funders, thank you for giving us
a chance to see your ^{awesome} campus. I loved the
junging area right next to the bookstore.
I'm looking forward to being an aerospace
engineer.

With all my appreciation, Lucia
Garcia

Arglynne Hernandez A.J.

What I really liked is scratch
because it was really fun and
funny

Thank you bradeph for helping us
in any way we needed and
thank tyan for getting to know us
and be a very fun and nice teacher
and thank you tresa for helping
us also you were very funny and nice
